"Louise Oldman's photographs aren't just great pictures they capture the moment in way that shows incredible skill and talent. The images she took of our daughter really captured her personality and her sense of fun. Louise is incredibly talented and we would definitely ask her to take more photographs for us".

"I have used Louise's art to decorate my Holistic Clinic for a year now, and many of my clients have commented on the tranquil, unique and haunting images that Louise manages to capture so well in her photographs. Both the colour and black and white prints are very popular and I would recommend the high quality and gifted eye of Louise Oldman Photography to anyone - the images inspire and delight every time. Thank you for your art."
